Repeat, having passed a couple.

This dance is dedicated to the dancers in the San Francisco

Bay Area who are still eager to dance Petronella after dancing for a full evening. Upon request, the musicians are often happy to play it after the final waltz, and commonly two or more sets spontaneously form and dance it eight times through with mostly-controlled abandon. The title refers to the arrangement of electrons that occurs after energy is added to an atom or molecule. Such excited states are often unstable until they release the energy and return to the ground state.

Medley of 48-bar strathspey and 48-bar reel for three dancers

The dancers comprise a man between two women with nearer hands joined. The man may hold the corner of a handkerchief in each hand, the opposite corners of which are held by the women. Alternatively, ribbons can be used.

#### **Strathspey**

The man turns slowly round in the same direction as the women going under the arch, using traveling step. All finish in places.

9 – 16 All set with Highland Strathspey setting steps

17 – 48 Repeat twice with different Highland strathspey

setting steps.
